University Academic Regulations 2025

Attendance Requirements

Students are required to maintain a minimum attendance of 75% in each registered course during a semester. Students falling below this threshold will be marked ineligible to sit for the end-semester examination in that course, unless a medical exemption has been approved by the Dean of Academic Affairs at least two weeks before the examination period begins.

Examination Eligibility

A student is eligible for the final examination only if they have satisfied both the minimum attendance requirement and have cleared all outstanding fee payments by the date specified in the academic calendar. Students who fail to satisfy the minimum attendance requirement will not be permitted to sit for the final examination and will be required to repeat the course in a subsequent semester.

Grading Policy

Final grades are computed using a weighted formula: 30% continuous assessment, 20% mid-semester examination, and 50% end-semester examination. A minimum aggregate score of 40% is required to pass a course.

Grievance Procedure

Students who wish to contest a grade must submit a written appeal to the Examination Cell within 10 working days of the result being published. Appeals submitted after this window will not be considered.

Leave of Absence

Students requiring an extended leave of absence exceeding two weeks must submit a formal request to the Registrar, accompanied by supporting documentation. Approved leaves do not count against the minimum attendance requirement.
